The dinette also doubles as extra sleeping space if your kids' friends want to stay the night. And everyone can enjoy some privacy when getting ready in the toilet and shower room. The chef will love having a cooktop and microwave to make meals and snacks, as well as a sink and counter space to clean up everything afterwards. The aerodynamic radius front profile allows for better gas mileage, and the one-piece walkable decked roof allows you to easily clean off the unit after a fun weekend.
